DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-2, 5 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a) Claim 1: in line 2, successive steps are claimed; in sections c) and d), curing precedes removing; in line 15, it is claimed that curing may be before or after removal. This latter statement contradicts the successive steps c) and d).

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-2, 5 and 8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which

Art Unit: 1762

was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

“non-fabric”, the negative limitation added to claim 1, line 3 is not in the specification as originally filed and is therefore new matter.

The applicant is requested to cancel new matter.

Double Patenting

5. The terminal disclaimer has been received and approved.

Claim Rejections - 35 USC § 102

Claim Rejections - 35 USC § 103

6. When the applicant cancels the new matter, as addressed above, the 102 and 103 rejections over Rattee et al (4315790) will be reinstated.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1762

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. The rejection of Claims 1-2, 5 and 7-8 under 35 U.S.C. 103(a) as being unpatentable over George (4061516) taken inn view of Vogels et al (US2002/0022575) or Ratee et al (4315790) is withdrawn because of the amendment filed 1/30/2006

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
